If you will recall sometime before you left for the Nanking Office, you have instructed our mailing clerk Mr. Yih to redirect all Chinese publications to you, with exception of a few, including the Rolled Tobacco Tax Bureau Publication.

When Mr. Yih left us, Miss Leigh took over the responsibility of mailing and ever since then, I understand, all the publications have been redirected to you. Since we have great need of the statistical table on cigarette productions, will you please extract that table and return it to Mr. Chow every time you receive a copy of that publication?

We have decided not to ask you to return the whole publication every time, as it would be rather cumbersome to send it back and forth. Incidentally, we also decided not to refrain from sending it to you, for it would be a futile task for Miss Leigh to attempt to retain the exact publication when they come in a wrapped condition.

At present we are in need of the January and February Production Figures and will be pleased to receive those as soon as possible.

Very truly yours,

A. Viola Smith
