Remarks: The exact number of motor cars and trucks in Peking is not known, the Police say approximately 1200, but we believe there are more. Exact details as to the number of each make are not available and the numbers shown are approximated in most cases. Owing to lack of information the list for Shantung Province is not as well classified as it should be and therefore the number under the heading of "Miscellaneous" is very large for this province.

Acting Chief, Automotive Division.
