PREFACE

It is my pleasure to say a few words by way of prefacing on behalf of the Alliance Administration.

This Hand Book is one of the three publications put forth annually by the Alliance; but it is the only publication that gives us the composite information about Chinese students in the United States of America. Aside from presenting us a clear picture of the historical development, the present organization and the activities of the Alliance, which, no doubt, is of great interest to the public, this little pamphlet has included in it a succinct description of various Chinese students' organizations in the United States, thus affording us a most vivid cross-section view of the widely divergent interests and heterogeneous activities of this large group of young men and women, who have left their home land to seek higher education in this country. I need not, of course, dwell on the inestimable value of the Directory of the Chinese students, as well as the carefully prepared classification data appended at the end of the book.

With the publication of this Hand Book, the Alliance has an existence of fully twenty-eight years. Looking back over its entire past history, indeed, one could not resist the feeling of pride and glory as he sees how that little embryonic Pacific Coast Chinese Students' Alliance formed in 1902, with a mere handful of twenty-three Chinese students has finally blossomed forth into a nation wide organization, having a membership amounting to thousands and local branches scattering throughout the entire United States. No one will deny the enormous service the Chinese Students' Alliance has performed for the welfare of China, as well as for the common interest of our fellow students. Especially noteworthy is its present determined policy to stand for the interest of the broad masses of our down-trodden brethren at home and to relentlessly combat all imperialist moves seeking to tighten the octopus grip of imperialist exploiters on the Chinese people.

I am glad that the fine spirit on the part of our fellow members has contributed much success to the Alliance administration. Of late, however, there are some selfish elements who dared to place their personal interest above the public weal and employ abominably shameful means to destroy the Chinese Students' Alliance, which is the only organization of the entire student body, built up by almost thirty years' incessant toil of our predecessors. These scoundrels are noxious yeeds among our ranks and they must be ruthlessly eradicated in order to assure us a healthy organization. To do this I can count on no surer reliance than the loyal support and constant cooperation of the entire Alliance membership.

I wish to express my warm thanks on behalf of the Alliance administration to Mr. Wilson S. Wei, whose untiring labor has made possible the appearance of this Hand Book. To all members of the Alliance I want to avail myself of this opportunity to extend my best wishes for their happiness and academic success.

TSI-PEI YU,

"THE SOUTH MANCHURIA RAILWAY"

The South Manchuria Railway, with its luxurious standard Pullman cars and its commodious coaches, ensures comfortable, profitable, speedy journey from all points in China to Kobe, Yokohama and Tokyo, through the most picturesque, alluring sections of Manchuria, Korea and Japan.

Trans-Pacific travellers from Shainghai, Tientsin, Peking and other Chinese cities to the United States, and vice-versa, will find it convenient, instructive and pleasant to break the monotony of sea voyage by utilizing the South Manchuria Railway.

The South Manchuria Railway has through traffic arrangements with the government railways of China, Korea and Japan for the convenience of its patrons. Along its main lines the Railway maintains well-appointed modern hotels where the service is as good as the charges are reasonable.

To the Chinese students, coming to America or returning home, this Railway offers the opportunity to pass through three interesting countries, Manchuria, Korea and Japan—thus affording them more varied experience and wider observation than otherwise possible.

Scientists Tell How to Live Longer

Have you ever had a thorough health examination? Are you applying the important rules of health to your own needs with intelligence and precision? Many visitors in the United States from China and many Chinese residents of the United States are subscribers to the health examination services of the Life Extension Institute. . . .

The Institute was organized in 1913 by a large group of physicians, scientists and professors of medicine. Since the Institute was organized more than 800,000 men and women have taken advantage of its health examinations and instructions on healthful living and knowledge of the Institute's scientific work has reached all parts of the world. . . .

The Institute's examination is designed to point out to you any factors which may be causing a present lowered condition of your health or threatening your future. The Institute will also place before you the most authoritative scientific information on healthful living. . . .

These examinations are available at the Institute's Head Offices in New York City, Boston or Chicago, or at the office of the Institute's medical examiner in whatever part of the United States you are situated. No medical treatment is included. . . .

You are cordially invited to visit the Institute or to write for further information and many interesting free reprints on the subject.

A Chinese Student Tells His Story

Sheng-Cheng, at thirty, has written his autobiography. From the Boxer Rebellion to the Revolution of 1916, here is a thrilling first-hand account of his life. Mr. Sheng wrote his book to promote better understanding between the East and the West. "Here," says Paul Valery of the French Academy, "a charming book may be the sign of a new era."
